Tools : GitHub, Chrome Dev Tools, Postman, Heroku, Netlify, Firebase, Figma, Etc.

Experience

Company Name : Mysoftheaven (BD) Ltd.

Location : North Pirerbag, Raisa & Shikdhar Tower, Dhaka-1207.

Designation : Full Stack Developer

Date : 12 July, 2023 To Running.

PROJECTS

▣ **Techwave** – [Mern-Stack] [Live](#) [Github frontend](#) [Github backend](#)

Feature:

Tech Tips & Tricks Hub is a comprehensive full-stack web application built to empower tech enthusiasts with expert guidance, practical solutions, and user-generated content.

- Developed a responsive platform catering to tech enthusiasts with role-based authentication for users and admins.
- Users can explore tutorials, and tech recommendations, with the ability to upvote and share their insights.
- Admin panel for managing users, content, and premium features.

. Aamarpay integration for secure online payments.

. REST API built with Node.js, Express.js, and MongoDB for backend operations

Technology: Next js, Typescript, Next UI, MongoDB, Node.js, Express.js, Mongoose, Aamarpay

□ **Car Rental Reservation System** – [Mern-Stack] [Live](#) [Github frontend](#) [Github backend](#)

Feature:

Developed a responsive car rental reservation platform with role-based authentication for users and admins. Key features include:

· Real-time car inventory with efficient state management using Redux Toolkit and RTK

. Booking system for users to search, select rental periods, and complete reservations.

. Admin panel for managing cars, bookings, and users.

. Aamarpay integration for secure online payments.

. REST API built with Node.js, Express.js, and MongoDB for backend operations

Technology: Redux Toolkit, Redux RTK, React, TypeScript, MongoDB, Node.js, Express.js, Mongoose, Aamarpay

□ **Land-Portal** -[Full Stack] [Site Link](#)

Feature:

• Land portal is a smart land management system to manage land in Bangladesh, built with Next.js for seamless development and user experience.

• Employed Next.js for frontend development to ensure fast-loading, dynamic web pages. its server-side rendering capabilities for efficient data retrieval and presentation.

.By automating tasks like registering land and transferring deeds, the system makes everything faster and fairer. This project aims to make managing land simpler, which is super important for Bangladesh's progress

Technology: Next js, Redux, Redux Toolkit, Tailwind css, Axios..

EDUCATION

B. A (Bachelor of Accounting)

Naogaon Govt. College

January 2020- Current.

TRAINING

Complete Web Development [Programming hero]

This course was all about full-stack web development. To be precise it was MERN-stack development course. Where I have learned from the basic HTML5, CSS3 and JavaScript ES6 to advance React.js, Mongo DB, Node.js.
